

Additional Military Layers (AML) Reader

FORMAT NOTES:

- The AML reader shares the same information as the S-57 format. Please refer to the *S-57 (ENC) Hydrographic Data Reader* on page 105.

Overview

S-57 Additional Military Layers (AML) is a unified range of digital geospatial data products designed to satisfy the totality of NATO non-navigational maritime defence requirements. This includes hydrographic data beyond that for passage and harbour navigation as well as oceanographic and meteorological data.
